THURSDAY EVENING, AUGUST 2.

**FRESH WATER UNDER SALT.**—Shortly after the Government sunk its artesian well on Bedlow's Island, N. Y., and struck fresh water at a depth of 104 feet, with a head of 40 feet, H. H. Abernethy, the owner of the large coal docks south of the Central Railroad pier on the New Jersey side of the river, petitioned the Jersey City Board of Works for a larger main to run to his wharf and supply the vessels that stopped there with water. The Board refused to grant the petition. Mr. Abernethy had read of the success of the government in getting water on Bedlow's Island, and he decided to experiment near his own property. He made a three-months' contract with an artesian well company, and for nearly two months now their workmen have been at work drilling a twelve-inch well under the salt waters of the bay a hundred feet from the shore. They have reached a depth of 300 feet, and have had a plentiful supply of fresh water since they reached 150 feet. The engineers say that in 100 feet more a well of water will be struck sufficient to supply all the vessels in the harbor with water, and a good deal will go to waste besides. The drill when first put to work passed through several feet of mud and then struck trap rock. After that came a stratum of mica and then a thick vein of white marble. Below the marble quartz was found and that is now being drilled through. The well will be completed in less than a month. The water is of a much better grade than the Brooklyn city water, which is the purest municipal water in that vicinity.

**Democratic Congressional Convention.**

The basis of representation shall be one delegate for every hundred votes or fraction over fifty cast at the gubernatorial election of 1885. The committees of the cities and counties of the district are requested to give notice of meeting for the selection of delegates from their respective cities and counties.  
Delegates are requested to be present in Alexandria at ten o'clock a. m. on the day of the convention, that the business of the same may be facilitated.

WILLIAM S. ODELL.

The capital stock of this company is \$625,000, divided into 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the

SECRETARY, Room 40 Le Droit Building,

WASHINGTON, D. C.
